

Venturi injector complete PP 1" x 13 mm x 1" male thread x hose tail x male thread black (7025670)

TECHNICAL SPECIFICATIONS

Colour	black
Material	PP
Connection	male thread x hose tail x male thread
Size	1" x 13 mm x 1"

PRODUCT INFORMATION

Delivers a uniform distribution of chemicals and fertilisers.

The most common installation of the injector is as a bypass to a manual valve. Injector is installed around a point of restriction such as a regulator valve or gate valve which creates a differential pressure, thereby allowing the injector to produce a vacuum.

Complete set includes: Injector body, stainless steel screen filter, 150cm suction tube, check valve, 2 ball valves, male adaptors, nipples, pieces of PE hoses to connect the set in the main system.
