PRODUCT INFORMATION

The multi-layer design ensures that Tricoflex® R is both highly flexible for easy handling and has an excellent resistance to repeated bending, crushing and tensile stress. A greatly resistant woven fibre and modified materials compared to Tricoflex® make Tricoflex® R a product particularly well suited to gantry sprinkler equipment in greenhouses, with increased resistance to tensile forces. In addition, the inner surface is extremely smooth, thereby maintaining an even

flow. Especially thick and made of high quality materials, Tricoflex® R offers remarkable aging resistance with exceptional preservation of flexibility. Application: Automatic sprinkler installations in greenhouses (mounted on motorized carts) Irrigation.
