

# Profec Round centrifugal filter outside tank DN100/150 stainless steel (7036675)

# TECHNICAL SPECIFICATIONS

Material filter element	stainless steel
-------------------------	-----------------

DN	100/150
----	---------

## PRODUCT INFORMATION

Underground pre-filter for rainwater collection, suitable for up to 440 m2 collection area. Features low-maintenance and finest filtration (0.4 mm) with a water yield of 95%. Inlet DN 150, outlet to rainwater tank DN 100, and outlet for residual water/dirt DN 100/150. Designed with a height offset of 210 mm between inlet and outlet to the tank. It also comes with a stainless steel fine sieve insert and automatic rinsing unit. Large filter surface efficiently prevents dirt from getting into the cistern, even with light dirt.
