## PRODUCT INFORMATION

The Norsup multi-element cartridge filter utilises the latest cartridge filter technology and is constructed with non-corroding, durable material. The filter contains a large filter area, high flow capacity tank and multiple filter elements which provides an unrivalled level of hydraulic debris-catching performance. You can also save precious pool water as the filter does not need to be backwashed.

### Features:

- Large flow air relief valve
- Pressure gauge included
- Detachable, easy grip handle
- UV resistant tank with max temperature resistance of 40°C
- 3-way clamp kit allows easy access inside the filter for cleaning & cartridge replacement

- 1.5" bottom drain plug allowing efficient winterisation & simple cleaning & rinsing with a standard garden hose
- Multiple elements provide greater surface area to catch debris keeping pool maintenance to a minimum
- Water saving design with no backwash required
- Ideal in combination with Multicyclone or Norsup UV-C
- 10 years tank warranty
