PRODUCT INFORMATION

With the new Rain Bird RC2 smart irrigation control solution you can confidently manage your system from anywhere. It comes with Wi-Fi access for real-time alerts and automatic weather adjustments that can save water and money. The RC2 provides flexible scheduling features embracing a wide variety of landscape applications. The inbuilt, powerful, advanced irrigation features help to meet any type of regional watering restrictions. Controller access can be done through the Rain Bird mobile app with or without Wi-Fi. External battery backup is not required for the controller RC2 and the non-volatile memory permanently saves the current programming.
