PRODUCT INFORMATION

The Sta-Rite P-STR pumps are precision moulded of reinforced fibreglass. This lightweight, exceptionally strong, thermoplastic is designed for much higher pressure operation. The P-STR series are suitable for salt water applications up to 0.4% (4 grams per litre) salt concentration. The P-STR has a special motor shaft and all inner parts are made from high grade stainless steel or thermoplastic material.

Features:

- Connection: female thread
- Self-priming diffuser design makes this our fastest priming pool pump
- High head impeller for maximum performance output
- Stainless steel locking clamp for quick and easy servicing
- "See Thru" trap lid
- For salt water applications up to 0,4% salt concentration or 4 grams/liter
- Heavy duty totally enclosed fan cooled motor (TEFC)
- Thermally protected, all single phase motors
- Multiple drain locations for quick winterising
