PRODUCT INFORMATION

The Rain Bird irrigation controller, type ESP-TM2 comes in models with 4, 6, 8 and 12 stations. Comes with a new dial control similar to that of the Hunter's X-Core. Suitable for both outdoor and indoor installations ideal for small and medium gardens. Delivered with a wall-mount case, screws and anchor shields. Compatible with the LNK WI-FI 2 module in order to allow remote control of the controller via the app.
