

# Rain Bird LNK2 WiFi module type RZX & IESP4MEEUR (7033682)

**RAIN BIRD**

# TECHNICAL SPECIFICATIONS

Type	RZX & IESP4MEEUR
Suitable for	ESP RZX, TM-2 & ESP-ME3

## PRODUCT INFORMATION

The Rain Bird LNK2 Wi-fi module should be used with Wi-Fi ready controllers like the ESP-RZX indoor or outdoor versions or the ESP-ME.

This is ideal for users that wish to manage their residential garden irrigation off-site, receiving real time alerts and make use of water management tools for efficient irrigation.

The Rain Bird LNK2 Wi-fi module is compatible with Wi-fi ready controllers such as the ESP-RZX indoor and outdoor and the ESP-ME.

The LNK2 Wi-fi module can convert together with a conversion kit old models as well as Wi-Fi ready ones so you can make use of the Rain Bird app to control your irrigation off-site.

The app also retrieves information from local weather stations in order to provide weather information and forecasts for adequate irrigation planning and more importantly saving water and time.
