

**Rain Solenoid valve fibreglass  
reinforced nylon 1" female  
thread 10bar 24VAC black type  
RN150 (0862902)**

# TECHNICAL SPECIFICATIONS

Colour	black
Material	fibreglass reinforced nylon
Operation	indirect servo-operated
Indirect effect	yes
Material housing	fibre-reinforced plastic
Material seal	NBR
Connection	female thread
Right-angled model	no
Temperature range	4°C - 70°C
Minimum pressure difference	1 bar
Frequency	50 Hz
Minimum inlet pressure	1 bar
Pressure	10 bar
Direct current (DC)	no
Type	RN150
Capacity	125 l/min
Size	1"

Voltage

24VAC

## PRODUCT INFORMATION

The plastic electric valve is for hobby or professional use.

Technical Specification:

Temperature-resistant from 4° to 70°C.

All types with flow control and manual operation.
