Material	plastic
Suitable for	Eagle & impact series rotors
Connection	male thread
Pressure	21.7 bar
Size	1"
Length	305 mm
Length	30 cm
Number of Exhausts	2

## PRODUCT INFORMATION

The Rain Bird Swing Joint, type FALCON & 8005 is ideal in professional commercial installations where impact sprinklers are used.

The swing joint's special elbow design reduces the pressure loss by up to 50%, thanks to the improved water stream channels in the joint.

The oversized threaded inlets and double o-rings make installation easier at under water or in difficult places.
